3A Techvolution Academy - Practical AI Fluency Starter Guide

3A Technology Solutions (CAC BN: 9931488) | Ideas - Technology - Impact

1. Understand What AI Assistants Do Well:
   - Summarizing documents, brainstorming structures, drafting initial copy, and explaining code.
2. Always Provide Clear Context:
   - State your goal, audience, constraints, and desired output format clearly.
3. Verify Every Factual Claim:
   - Never treat AI output as unverified truth. Check numbers, citations, and code execution.
4. Protect Sensitive Data:
   - Do not paste private customer records, credentials, or confidential keys into public prompts.
