3A Techvolution Academy - Vibe Coding Specification Template

3A Technology Solutions (CAC BN: 9931488) | Ideas - Technology - Impact

Vibe Coding Specification Template (Build Responsibly with AI):

1. Problem Statement: What user problem does this application solve?
2. Core User Flows: List the 3-5 primary actions a visitor or user will take.
3. Data Model & State: What data structures are needed and where are they stored?
4. UI & Accessibility Rules: Mobile responsiveness, keyboard navigation, contrast.
5. Verification Checklist: Typecheck, unit tests, and manual review of generated code.
